

Fire in the Redwoods – 2024 Tour Series

-The Canoe Fire -

Recovery and Resilience after 20 years

The 2003 Canoe Fire burned nearly 10,000 acres of old-growth redwoods, becoming one of the largest fires in these dynamic forests. Tour these ancient groves with foresters and fire scientists and join a discussion about the past and future use of fire in redwood forests.

When: August 16th, 2024 @ 9:00am – 4:00pm
